KMK9

YOUR INSTRUCTOR

Your instructor when hosting is KMK9's owner Kevin Motion.

I've now been working professionally with dogs for over 10 years, including throughout the UK and Internationally. During this time I have been actively involved in Scent sports both teaching or competing with my own dogs!

Why host me?

- Delivered workshops throughout the UK & Internationally.
- Level 2 Tracking/trailing (SIFD) Instructor
- Was one of the first Sports Mantrailing Instructors in Scotland (Fully qualified Mantrailing Instructor & Assessor)
- Accredited in Scent Detection with multiple UK & international organisations.
- Over a decade of hands on training experaince
- Award-winning (Specialist Dog Training Service of the Year, Scotland).

I've run hundreds of training classes and workshops over the last ten years helping hundreds of owners and their dogs, specialising in dog-on-dog reactivity. Along with all this practical experience I also hold several diplomas in behaviour and training, this theory knowledge backs up the practical experience.

I choose to only use science-based training techniques and reward-based training.

This information pack includes all the information you need to know about hosting Kevin.

MANTRAILING

Hosting Kevin for either full-day or two-day workshops.

For full-day and two-day workshops, Kevin runs 9-4pm for the day and limits the number of teams to just six per workshop to allow him plenty of time to get to know the individual teams and aims for around 4 trails a day (plus a warm up trail) as he prefers to focus on quality over quantity.

All the workshops and/or sessions can be tailed to all different levels of teams.

If any attendees have special requirements which need to be met please contact us to ensure adjustments can be made before booking them on to the workshop.

The Mantrailing training is based on various methods that Kevin has qualified in over the years, Kevin's approach is depending on each team in front of him with the ultimate aim of everyone learning, progressing and having fun.

TRACKING/TRAILING

Kevin is able to deliver full-day or two-day workshops which are both suitable for complete beginners as well.

For full-day and two-day workshops, the days run 9am till 4pm.

For tracking workshops it is best if Kevin has access to grass field/muir land, if teams have plenty tracking experience then we can work in industrial estates etc.

All the workshops can be tailed to all different levels of teams. Kevin will always work on quality over quantity however he will aim for around 4 tracks per day plus cover track laying exercises, indication work and problem solving throughout the workshop.

If any attendees have special requirements which need to be met please contact us to ensure adjustments can be made before booking them on to the workshop.

The tracking/trailing method Kevin uses is Scent Imprint for Dogs.

SCENT DETECTION

Kevin is able to deliver introduction workshops, regular progression sessions along with full-day or two-day workshops.

During the workshop/s, Kevin works with dogs one at a time to allow him to focus on each team and offer them any advice on problem-solving they need.

Kevin normally uses Red Kong as his target odour however he is experienced with Cloves, Gun Oil and Cat Nip.

Venue can be fully outdoors or have indoor space, as long as the search area is suitable for the dogs.

THEORY SEMINARS

With Kevin's vast experience over the last ten years working hands on with owners and their dogs in multiple scent sports he is able to provide you and your clients with theory seminars.

Kevin is open to discussions about the topics so if there is anything in particular you wish Kevin to talk about please let him know, otherwise Kevin is happy to present a talk on a topic that he feels is fitting.

Most talks are around an hour to hour and a half and normally held in the evening between workshops.

All Kevin needs is a venue with a projector.
